

Confidential from Other State Executive Directors

Due to confidentiality and fears of retribution against these men, I will not be revealing the sources. However, in the proper setting, I would share portions of emails and text messages without any person or state identifiers to verify the veracity of these statements with a person we mutually trust.

1. MD/DE pastor and former Board officer...
 - “You were sold for NAMB funds.” “Good ole boys’ club of scratching my back and I will cover yours!”
2. State Exec. Director ...
 - “Partnership is dead in the SBC”
3. State Ed. Director ...
 - Because of NAMB not honoring commitment with insurance or the funds to cover it, “financially we really have no choice” so he recommended they take the 100% offer to keep from losing previously committed funds
4. State Exec Director...
 - “NAMB is continuing to pressure states”
5. State Exec Director...
 - “disturbing to read that the president of NAMB would personally intervene regarding your employment.”
6. State Exec. Director ...
 - On 100% funding ... “agreement presented to me forbids my discussing it with anyone else.”
7. State Exec. Director ..
 - state loose NAMB funding if I criticize them”
 - After I sign it, I cannot talk about it anymore
8. State Exec. Director ...
 - “Ezell lying and trying to bully us”
9. Sentiments from writings.
 - NAMB expects us to take it every time they decide to not honor the agreement or want to change the operating agreement
 - NAMB expects the states to roll over
 - Withholding NAMB funds under guise of insurance is a matter of integrity (could provide money, if NAMB not provide insurance as per the Partnership Agreements)
 - Make new offers instead of honoring agreements, he pressures us into a new agreement and tells us it is better for us
